Together, the repertoire of events will be geared towards providing an integrated marketing platform for Southeast Asia's architectural and building industries. Source from the highest quality cutting-edge technologies, innovative products and related services, as well as network with like-minded professionals, key players and delegates during networking events and conferences.

## Bringing you Trade Visitors from A – F

Architects

Builders

Contractors

Developers

Engineers

Facility Managers

## The Exhibitions

ArchXpo 2015, the International Exhibition of Architecture & The Built Environment, will be the chief showcase of relevant technologies, products and related services in the architectural and built environment industries. The expo is co-organised by Singapore Institute of Architects and Conference & Exhibition Management Services Pte Ltd. It is also part of the Archifest series by SIA.

Explore a showcase of services, technologies and innovative products in the field of facility management, while networking with professionals who want to further their knowledge of their discipline and build contacts through the International Facility Management Conference 2015 as well.

LED+Light Asia 2015 is the only trade show entirely dedicated to the LED/OLED industry in Singapore. It features the latest LED and lighting technologies from industry professionals and develops new opportunities across the globe to key customers as well.

Fire and Disaster Asia 2015 is a three day exhibition designed to showcase a state-of-the-art range of specialised rescue and disaster management products, innovative technologies, as well as accompanying services that safeguard lives and properties during fire disasters and emergencies.

Safety and Security Asia 2015 will be the quality sourcing platform for excellent commercial security solutions through an extensive array of technologies, innovations and related services in the safety and security arena.

Work Safe Asia 2015 will gather together professionals and all stakeholders involved in occupational safety and health for a fruitful knowledge exchange of the latest cutting-edge technologies, strategies and solutions to form a safer and healthier workplace.

## The Conferences

Singapore Architectural Lighting + Design Conference 2015 is designed for Lighting Consultants, Interior & Exterior Designers, Facility Managers, Architects and other related industry professionals. The conference will seek to address main concerns of the present lighting industry while participating professionals engage in the thought exchange and strategic discussions.

The International Facility Management Conference 2015 will highlight key concerns faced by senior executives and higher ranking persons in the workplace environment in ensuring proficient functionality of the built environment.

## The Awards

The 8<sup>TH</sup> presentation of The Merlion Awards constitutes part of the Safety and Security Asia, serving to acclaim exceptional new designs and products in the field of security. The Awards give well-deserving companies the accolades of excellence and pride of place to showcase their products at the exhibition, calling attention to the value of innovation.

The 2<sup>ND</sup> UP Awards: *Transcending Booth Design* are presented to exhibitors that demonstrate flair and innovation in booth design during the Architectural & Building Management Series 2015. Awards are presented to exhibitors in two categories: Best Boutique Booth (35sqm and below) and Best Larger Booth (36sqm and above)
